WELCOME TO DARSHAN EXTRUSION PVT. LTD

Greetings from Darshan Extrusions Pvt. Ltd.

Thank you for showing interest in our products. We take this opportunity to introduce ourselves as a leading manufacturer in the aluminum extrusion industry.

Darshan Extrusions Pvt. Ltd.

Established in 2011, our state-of-the-art manufacturing facility is strategically located in Kherdi, Union Territory of Dadra & Nagar Haveli, ensuring seamless accessibility to major business hubs like Mumbai, Surat, and Nashik.

At Darshan Extrusions Pvt. Ltd., we specialize in high-quality aluminum extrusions, with a production capacity of 700-800 metric tons per month. Our commitment to precision, durability, and innovation has positioned us as a trusted name in the industry.

ALUMINIUM EXTRUSION PRESS

LEARN

MORE

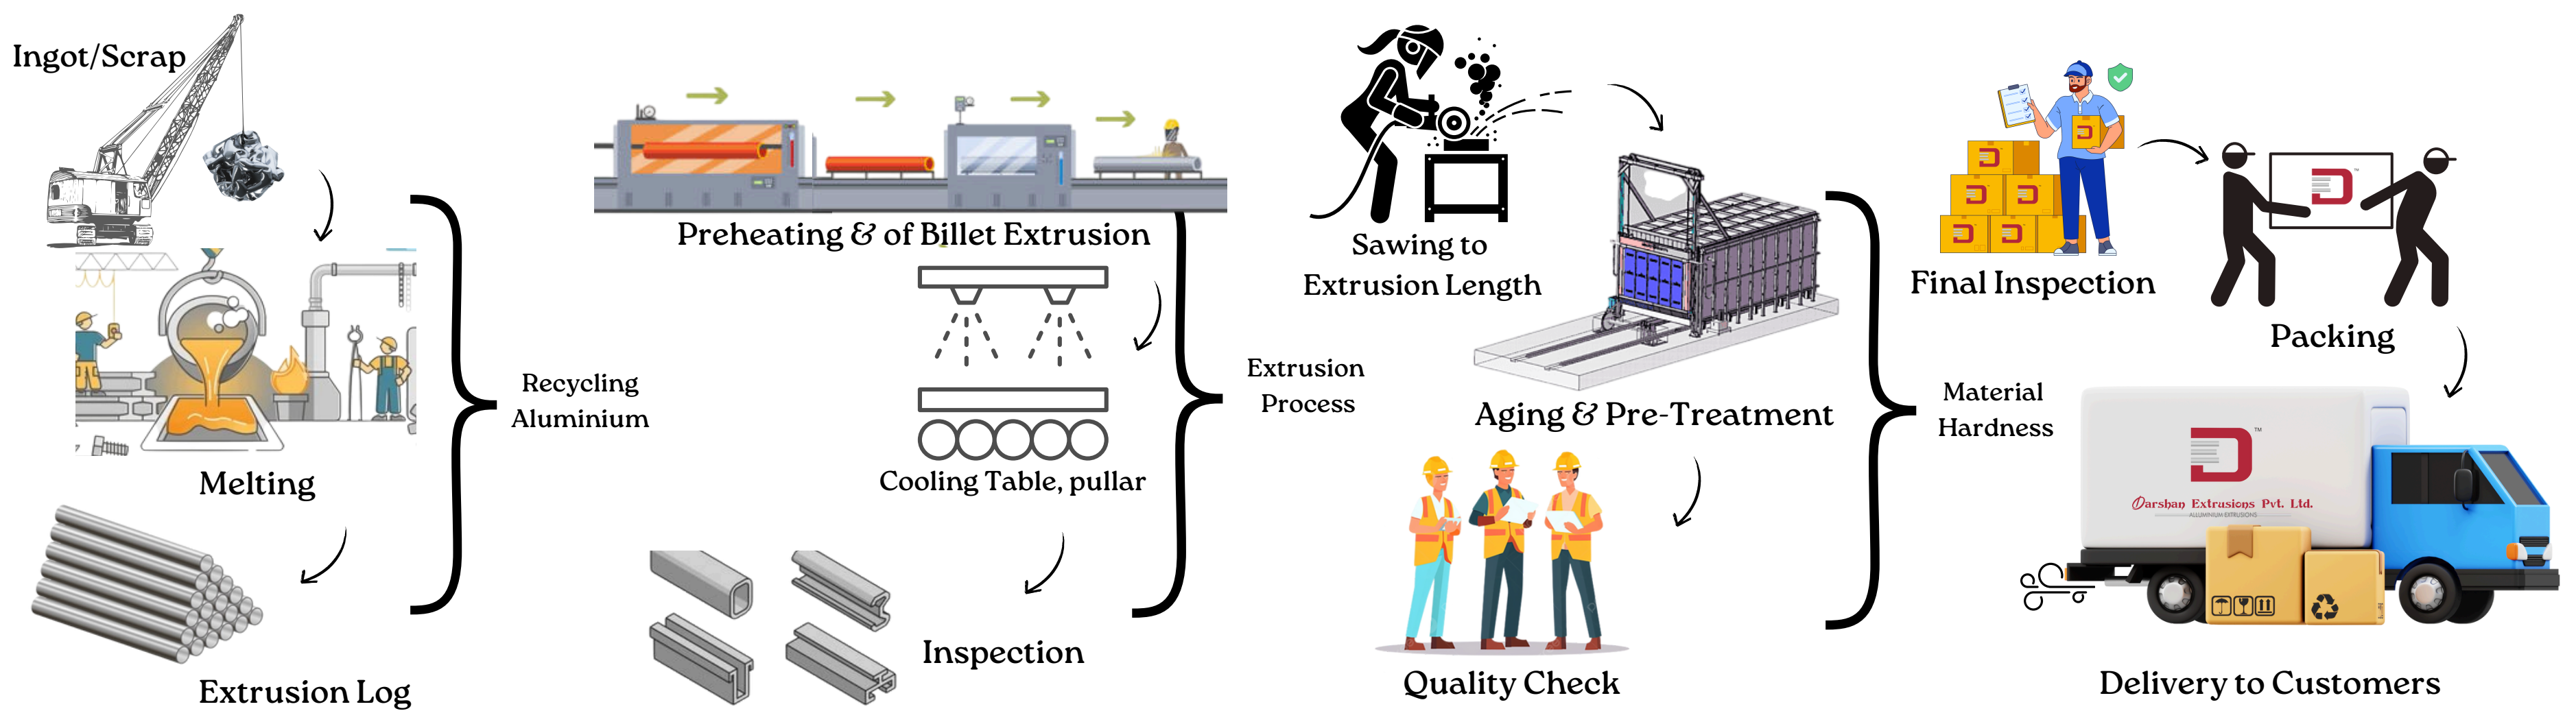

We have two advanced aluminum extrusion presses, one with a capacity of 1100 MT and the other 1800 MT, operating 24/7 to ensure continuous production. With this setup, we achieve a monthly production capacity of 700-800 tons, allowing us to efficiently meet the demands of both architectural and industrial applications.

ALUMINIUM EXTRUSION PROCESS

01

Recycling Aluminium

Aluminum scrap is melted at 660.3°C, purified, and cast into extrusion logs for further processing.

02

Extrusion Process

Preheated aluminum billets are extruded, cooled on the table, pulled for uniformity, and inspected for quality.

03

Material Hardness

The process involves sawing to extrusion length, followed by aging and pre-treatment, and finishing with a mill finish.

04

Inspection & Delivery

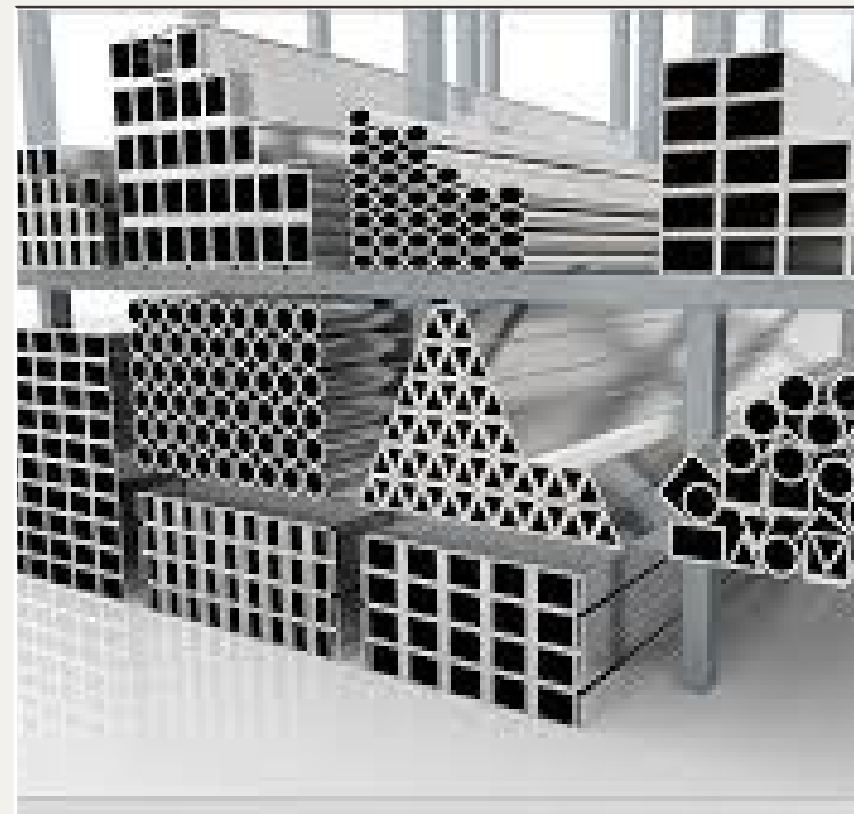

The products undergo inspection, are carefully packed, and then delivered to the customer.

DARSHAN EXTRUSIONS PVT LTD

PRODUCTS

Industrial

Commercial

Darshan Extrusions Pvt Ltd is a leading provider of commercial and industrial aluminum products, offering an extensive range of over 75 categories, including window systems, curtain walls, angles, pipes, and more. With a vast collection of 4,500+ dies, we specialize in manufacturing high-quality aluminum alloys such as 6063, 6061, 6082, 6101, 6005, 6005A, 6060, 2014, 1100, and others. Our commitment to customer satisfaction goes beyond standard offerings—if a client does not find the perfect fit for their requirements, we develop customized dies to meet their exact specifications, ensuring precision and excellence in every project.

Our Vision

At Darshan Extrusion Pvt. Ltd., we envision becoming a global leader in aluminium extrusion solutions by prioritizing quality, innovation, and customer satisfaction. We believe that the quality process begins with understanding our clients' needs, and our dedicated team is available 24×7, ensuring seamless support from design to production, supply, and post-sales service. With a strong in-house R&D team, we continuously strive to enhance our manufacturing processes and deliver precision-engineered products. Our commitment to strict quality control ensures that only the best products reach our customers. By ensuring timely order completion and producing outputs that are ideal for anodizing, we aim to provide exceptional finishes and perfect shades, setting new industry benchmarks.

Our Mission

At Darshan Extrusion Pvt. Ltd., our mission is to deliver high-quality aluminium extrusion products that cater to diverse industries, including Electrical, Electronics, Architectural, and Automobile sectors. With a strong emphasis on quality, we ensure rigorous quality checkpoints at every stage of production to maintain excellence. We specialize in providing aluminium extrusion products in various grades of aluminium alloys, ranging from conductive alloys to high-hardness alloys suitable for further tooling. Through continuous innovation and precision engineering, we strive to meet industry-specific needs while upholding our commitment to sustainability, durability, and customer satisfaction.

CERTIFICATES & ACCREDITATIONS

Darshan Extrusions Pvt Ltd is a certified company with prestigious accreditations, including ISO 9001:2015 for quality management, ISO 14001:2015 for environmental management, ISO 45001:2018 for occupational health and safety, and ISO 13485:2016 for medical devices. Additionally, the company is a proud member of ALEMAI, further showcasing its commitment to excellence and industry standards.
